Welcome to LUMA ❤️

**It's so lovely to meet you!**

Creating healthy, happy skin is not just our job – it's our obsession. LUMA started in 2016 and was created out of a whole lotta passion + love for healthy skin and self-confidence.

We believe in happy, confident and real skin. Our focus is on progress, results, sustainable skin health and encouraging you to nurture yourself and take some time for you.

We are not like anywhere else you have ever been before. Our approach to skin is holistic. We get real results because we understand and treat the cause of skin conditions. We promise we don't use the bandaid approach and mask symptoms with frilly stuff.

LUMA is a Functional Skin Clinic and Makeup + Tanning studio, which is co-owned by Paramedical Skin Therapist Kristy Parsons and Makeup Artist Gemma Skane.

Kristy studied Beauty Therapy in 1999 at the International School of Beauty Therapy and completed her International CIDESCO Diploma. She has studied at the Australasian Academy of Cosmetic and Dermal Science in Perth and The Fleming Institute in Melbourne. Gemma first stepped foot in the Beauty Industry by managing skin clinics and cosmetic houses. From there her passion grew and evolved into freelance makeup artistry where she studied with MAC in 2011.

We are here to create a positive impact in the lives of our clients and there is nothing that brings more excitement and satisfaction by empowering others to live a confident and happy life by creating the skin you love.

We can't wait to see you!

Love Kristy + Gem xx

## But First... CONSULTATION

**Our Advanced Skin Analysis is paramount before any skin treatment.**

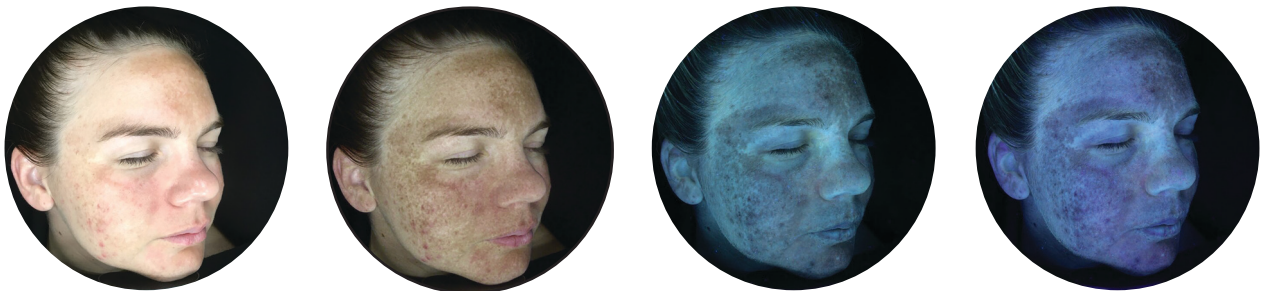

The LUMA Advanced Skin Analysis is unlike any other skin consultation you have ever had. We educate you on how your skin functions and our focus is always on treating the root cause and we guarantee results.

We treat skin holistically. This means we treat you as a whole, taking into account that what you see on the surface is related to internal and external factors. All systems are interconnected and have a direct influence on your skin.

Once we know the cause of your skin's condition, we create your individual prescription to revise your skin and build sustainable skin health.

Your Advanced Skin Analysis will include diagnostic photographs and clinical images with our skin analysis system which allows us to track your progress and results and analyse skin health from the deepest layer right through to the surface.

We treat skin conditions such as Acne, Ageing, Rosacea, Sun Damage, Melasma, Hyper-pigmentation and Scarring.
